# Context

# Levels of intervention through NAP

# Questions to trigger the discussions

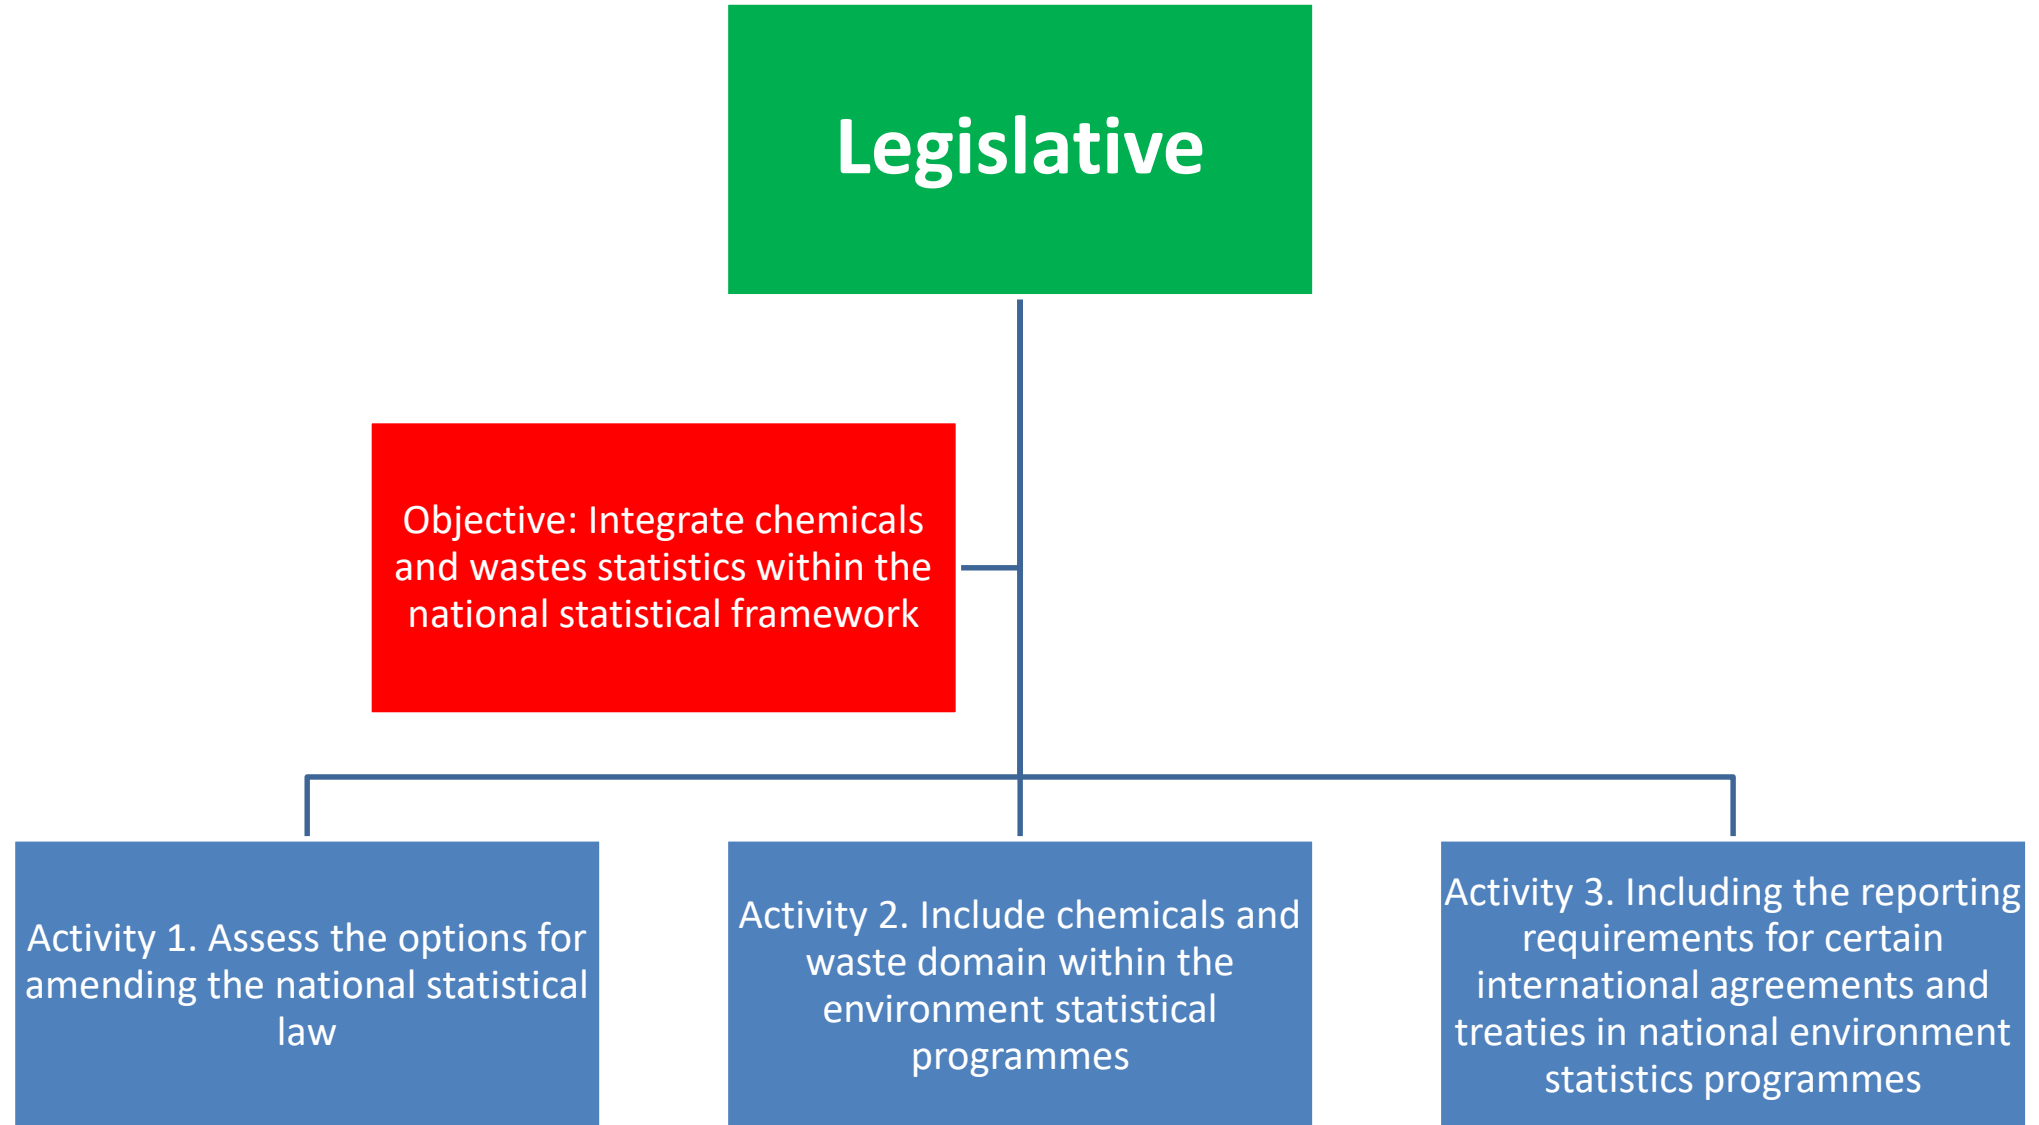

- What are the immediate actions you could take to integrate/enhance chemicals and waste statistics into national statistical programme?
- Could you define timelines/responsible authorities in relating to the on-going actions/initiatives as to advance with the chemicals and wastes statistics?
- Could a formal/informal discussion and/or information exchange platform among BHAS and the line ministries and agencies be set up and maintained?
- How could you influence the national decisions makers to take actions on advancing the chemicals and wastes statistics?
